Group Teamwork Agreement for Group # 62

We will share a project progress update at least once a week and arrange meetings as needed near deadlines. We will decide on meeting times and how long each meeting will be based on everyone's availability. Everyone should try to be on time and let the group know beforehand if they're running late.
We will communicate through our group chat, use Google Docs to collaborate on written work, and use GitHub to manage code, data, figures, and analysis results. Whenever a member updates materials or makes a new contribution, they will post a brief update in the group chat so everyone can follow the progress and review the changes.
We will agree on task assignments and internal deadlines together, distribute the workload fairly, and keep each other informed of our progress. Before submission, each member will review the final proposal and presentation materials.
If a member cannot attend a scheduled meeting or complete a task on time, they will notify the group as early as possible so we can adjust the plan. We will discuss disagreements respectfully and contact the STA302 teaching team if we cannot resolve them.
We will keep materials in our shared repository and folders clear and organized, document important changes, cite sources properly, and report our research methods, analysis process, and results accurately.

Declaration of Agreement

We, the members of group 62, will participate effectively in this group as we prepare our final project, over the course of the Fall 2026 term. This will include:

- *Acting in accordance with our group agreement, as outlined above.*
- *Attending group meetings on time.* If I must miss a group meeting, I will inform my group members ahead of time.
- *Coming prepared to share with my group.* If I am unable to prepare and/or complete agreed to work by the meeting, I will let my group know as soon as possible and take on additional work as needed to make sure everyone contributes a fair and equal amount to this project.
- *Being an active listener and participant.* I will ask for clarification if I do not understand something, and I will encourage all group members to speak up and share their views.
- *Giving constructive feedback, but not being unhelpfully negative.* I will comment on strengths and areas for improvement, when relevant.
- *Being respectful and professional at all times.*
- *Alerting the STA302 teaching team to any issues with our group so they can support their resolution.*

By completing the information below, each member agrees to abide by the group agreement and to contribute equally to the completion of the final project.

Name (as it appears on Quercus)	UofT email address	Date signed
Haiwen Yi	heaven.yi@mail.utoronto.ca	November 1, 2026
Olivia Qi	olivia.qi@mail.utoronto.ca	November 1, 2026
Matthew Frieri	matthew.frieri@mail.utoronto.ca	November 2, 2026
Annie Xu	annieannie.xu@mail.utoronto.ca	November 3, 2026

Once completed and signed, upload a PDF copy to your Quercus group page and submit a copy with your Final Project Part 1 submission.
